AUTHORS

Abcarian H

Pneumoperitoneum following oral-genital insufflation: Case report and literature review. 51(1):43

Amid PK

Symposium: Operative repair of inguinal hernias - part 1. 51(6):387

Arrillaga A

Symposium: Hemostasis in trauma surgery. 51(1):49

Baldwin JC

Partial atrioventricular canal defect, double-orifice mitral valve, ventricular septal defect, and complete AV block in an adult patient. 51(2):96

Barie PS

Symposium: Treatment approaches for enterococcal infection. 51(3):173

Bartlett ST

Symposium: Pancreas transplantation. 51(4):253

Bhullar IS

Etiology and optimal treatment of severe cases of meningococcal purpura fulminans. 51(6):352

Bloch JH

Giant retroperitoneal lymphangioma. 51(5):307

Brones M

The radial forearm fascial flap for coverage of hand and elbow wounds. 51(4):211

Bruce JM

Modified anterior compartment resection for soft tissue sarcomas of the thigh: Case report and technique description. 51(2):83

Buckmire M

Hydatid liver disease: Case report and literature review. 51(5):317

Budde J

An unusual case of a gastric diverticulum associated with a large paraesophageal hernia. 51(6):370

Bury TF

Clostridial gas gangrene of the spleen presenting as pneumoperitoneum. 51(5):312

Charash WE

Symposium: Hemostasis in trauma surgery. 51(1):49

Chinn BT

Colovaginal fistulas: A ten-year experience. 51(1):31

Cook JW

Partial atrioventricular canal defect, double-orifice mitral valve, ventricular septal defect, and complete AV block in an adult patient. 51(2):96

Acute varicocele: A sign of ruptured abdominal aorta aneurysm. 51(6):359

Cooley DA

Symposium: The Tucson experience with the CardioWest artificial heart. 51(5):325

Copeland J

Symposium: The Tucson experience with the CardioWest artificial heart. 51(5):325

Corbitt JD Jr

Symposium: Operative repair of inguinal hernias - part 1. 51(6):387

Daly JM

Editorial comment: Sarkoma — a fleshy excrescence. 51(2):70

Editorial comment: Metabolic imaging in cancer patients — a physician's new PET. 51(3):132

Derkowska I

Comparison between color Doppler imaging and ascending venography in the detection of deep venous thrombosis following total joint arthroplasty: A prospective study. 51(4):225

Dubay L

Ingested foreign body: An unusual cause of delayed (chronic) appendicitis. 51(6):363

Economou JS

Symposium: Developments in the diagnosis and treatment of cutaneous malignant melanoma. 51(2):101

Eisenstat TE

Colovaginal fistulas: A ten-year experience. 51(1):31

Feldbaum DM

Disrupted esophageal suture line: Management with transesophageal irrigation and drainage. 51(1):38

Finck CM

MRI in the diagnosis of posttransplant musculoskeletal pain. 51(6):373

Fitzgibbons RJ Jr

Symposium: Operative repair of inguinal hernias - part 1. 51(6):387

Flaherty LE

Symposium: Developments in the diagnosis and treatment of cutaneous malignant melanoma. 51(2):101

Fleisher LA

Anesthesiology issues in general surgery: Preoperative evaluation of the cardiac patient for noncardiac surgery. 51(3):157

Fry DE

Symposium: Treatment approaches for enterococcal infection. 51(3):173

Gaber AO

Symposium: Pancreas transplantation. 51(4):253

Galindo L

Hydatid liver disease: Case report and literature review. 51(5):317

Gaw FR

Giant retroperitoneal lymphangioma. 51(5):307

Gayle LB

Toe-to-thumb transfer in Poland's syndrome: Case report. 51(6):366

Geisler E

Diagnosis and treatment of emphysematous pyelitis: Case report and literature review. 51(4):249

Gerst PH

Diagnosis and treatment of emphysematous pyelitis: Case report and literature review. 51(4):249

Gelman B

Comparison between color Doppler imaging and ascending venography in the detection of deep venous thrombosis following total joint arthroplasty: A prospective study. 51(4):225

Goldstein ML

Carcinoid tumors of the lung. 51(3):135

Grossman AR

The radial forearm fascial flap for coverage of hand and elbow wounds. 51(4):211

Grossman PH

The radial forearm fascial flap for coverage of hand and elbow wounds. 51(4):211

Hallock GG

Truly emergent free flaps. 51(1):24

Hansbrough JF

Etiology and optimal treatment of severe cases of meningococcal purpura fulminans. 51(6):352

Call for MANUSCRIPTS

You are invited to submit an original manuscript for peer review by the editorial board of *Contemporary Surgery*. Descriptions of surgical techniques, reports of case studies, literature reviews, and vignettes focusing on the history of surgery are accepted for review. The focus of the editorial content of the journal includes abdominal, cardiovascular, thoracic, pediatric, and colon and rectal surgery, oncology, infectious diseases, critical care, and clinical nutrition.

We offer the advantages of prompt editorial board review of manuscripts submitted for publication, the capacity for reproducing illustrations in color, and timely publication of accepted papers.

Please follow the "Guidelines for Authors" when preparing papers to submit for review or contact our editorial offices for further information (310.533.2458, fax: 310.533.2504).
